Product Description

This high-quality Ultra High Speed HDMI cable by Delock is used to connect devices with an HDMI interface, such as televisions, Blu-ray players, monitors or projectors. By supporting a maximum bandwidth of 48 Gbps, content with a resolution of up to 8K Ultra HD (7680 x 4320 @ 60 Hz) can be played back.Dynamic HDR and Dolby® Vision supportThanks to the support of Dynamic HDR and Dolby® Vision, the cable is particularly suitable for use in home cinema and gaming. Colours are displayed realistically with impressive depth, the brightness and contrast of the image are optimally reproduced.Perfect sound thanks to eARC supportThe Delock HDMI cable supports Enhanced ARC (eARC for short). This means that HDMI devices such as UHD Blu-ray players can be connected directly to the TV, and the uncompressed audio signals are then transmitted directly and loss-free to the connected sound system via the audio return channel.
