Product Description

The ultra-thin, only 8 mm deep, modern range extender is designed for easy installation on a wall. The Archer Air E5 with Wi-Fi 6 support connects wirelessly to your existing Wi-Fi router thanks to its four built-in antennas, amplifying and extending the existing signal to areas you could not otherwise reach, providing reliable Wi-Fi coverage throughout your home or office. For better stability and speed, the device communicates in both the 2.4 GHz and 5 GHz bands with a modulation speed of 574 + 2402 Mbps (2×2 MIMO in both bands).
