Product Description

300 Mbps Wireless N Range Extender 802.11n/g/b (EX200)

The EX200 is a 2.4 G wireless N range extender. It is designed to expand the coverage of an existing Wi-Fi network in order to eliminate dead spots. The Wi-Fi network will be quickly and easily extended by pressing the WPS button on the EX200 and a button on the router. With its wall-plugging design and its two high performance antennas which offer up to 300 Mbps wireless N speed, the EX200 can meet users' demands for wireless Internet access on hard-to-reach areas.

Features

- Complies with 802.11 b/g/n standards
- Up to 300 Mbps data rate for Wi-Fi network
- Two external antennas enhance the throughput's stability
- Portable, compact and stylish design
- Supports WPS (Wi-Fi Protected Setup) Wi-Fi extension by one-click
- One Ethernet port for connecting wired devices to wireless network
- Energy saving and environmental protection
