

Item no.: HB02W-G-000-00-000-0

## SolidRun HummingBoard-Gate i2, Dual-lite core ARM A9, 1 GB DDR3, with Wi-Fi

from **124,10 EUR**

Item no.: HB02W-G-000-00-000-0

shipping weight: 0.14 kg

Manufacturer: SolidRun

### Product Description

SolidRun HummingBoard-Gate i2, Dual-lite core ARM A9, 1 GB DDR3, with Wi-Fi [Fly high with your ultimate IoT platform](#)

Get ready to fall in love with the HummingBoard family – a small and powerful, low-cost ARM computers that ignite the imagination. Whatever your dream is, the HummingBoard family will help make it happen – the possibilities for creating the next great IoT innovation are truly limitless.

IoT is about things connecting with systems, people and other things such as sensors and actuators. IoT field is emerging with a large variety of use cases and applications, requiring different connectivity methods and dynamic and flexible hardware capabilities. The HummingBoard family is the most innovative, dense and flexible IoT platforms of its kind, simplifying design and reliable deployment of such products. [Mix & Match](#)

Choose the model that's right for you. You can choose your SolidRun uSOM and match it to each HummingBoard you wish. [Connect to anything](#)

if that's your dream – a wide variety of connectivity options. [All the reliability you need](#)

The highest quality components, no moving parts. [Reduce](#)

Time to Market, Design Risk and Cost.

### Specifications

uSom Model: i.MX6 based dual-lite core uSOM

Memory and Storage:

1 GB DDR3

uSD

Connectivity:

1x RJ-45

4x USB 2.0

mPCIe with SIM card holder

Media:

HDMI-Out

MIPI-CSI-2 and MIPI-DSI

Parallel Camera

I/O:

Reset Button

36 pins GPIO Header

RTC with Battery

mikroBUS click interface

Power: 7 V - 36 V, 5.5 mm in (Twist and Lock mechanism)

Dimension: 102 mm x 69 mm

Software: Linux

Environment: Metal Enclosure (optional)
