

Item no.: 277149

2.4 GHz, 5 dBi WLAN Omni Antenna, RP-TNC Connector

from **5,89 EUR**

Item no.: 277149
shipping weight: 0.03 kg
Manufacturer: VARIA Group

Product Description

WLAN Omni Antenna for 802.11b/g for Indoor Use With this antenna you can improve the power of the outgoing signal and enhance the receiver sensitivity for incoming signals of your wireless devices. It will increase the reliability of any short-range communication, since the received signal will be clear and stable, which will reduce time-consuming retransmissions because of weak signal strength. This high-performance antenna is particularly suitable for setting up wireless networks in companies and at home. You will be able to provide even remote and hard-to-reach locations with a strong signal. The antenna is also ideal for large area applications like storage facilities, wireless hotspots and public spaces in general - everywhere you would like to increase the range of your wireless network. Features:

- Enhances the wireless signal of your wireless devices (2.4 GHz)
- Omnidirectional (receives in an area of 360 degrees)
- Easy installation, no configuration necessary

Specifications

Signal enhancement: 5 dBi
Frequency: 2.4 GHz - 2.5 GHz
Voltage standing wave ratio (VSWR):
Polarisation: linear/vertical
Direction: omni-directional
Resistance: 50 ohm
Connector: RP-TNC
Measurements: 12 mm x 198 mm
Weight: 32 g
Color: black
Operating temperature: -20 °C up to 60 °C
Storage temperature: -30 °C up to 75 °C
Operating humidity: 0 % to 85 % (not condensing)
