## EnGenius ENS202EXT - 2.4 GHz Wireless N300 Outdoor Access Point

# 111,16 EUR

Item no.: SC-2205-0614-1855  
shipping weight: 0.58 kg  
Manufacturer: EnGenius

### Product Description

EnGenius ENS202EXT High-Powered, Long-Range 2.4 GHz Wireless N300 Outdoor Access Point

The EnGenius ENS202EXT is a high-powered, long-range 2.4 GHz Wireless N300 Outdoor Access Point delivering data rates up to 300 Mbps and is ideal for providing connectivity to a small business network and its Internet connection for restaurant patrons, or for students and employees in educational or corporate campus venues.

#### Product Highlights

- High 400mW Wireless Power Delivers Long-Range Coverage
- Up to 300Mbps Wireless Speed and Backward Compatible to 802.11b/g
- Two External 5 dBi Omni-Directional Antenna Maximizes Wireless Connectivity
- SSID-to-VLAN Tagging
- User-friendly Installation Kit

#### Overview

The EnGenius ENS202EXT is a high-powered, long-range 2.4 GHz Wireless N300 Outdoor Access Point delivering data rates up to 300Mbps and is ideal for providing connectivity to a small business network and its Internet connection for restaurant patrons, or for students and employees in educational or corporate campus venues.

ENS202EXT is compliant with the IEEE802.11b/g/n standards delivering a wireless data rate of up to 300Mbps on the 2.4 GHz frequency spectrum. It features two omni-directional 5 dBi MIMO (Multiple In/Multiple Out) antennas that coupled with its strong transmit power of up to 400mW make it a compelling performance solution for small and growing businesses at a very affordable price.

ENS202EXT also features a robust security feature set that includes support for 64/128/256-bit WEP encryption, WPA/WPA2 Personal and Enterprise encryption, 802.1x RADIUS authentication, hidden SSID and MAC address filtering.

ENS202EXT has an IP65 rated weatherproof housing that ensures continued operation in harsh outdoor environments or in climates of extreme cold, heat or continuous moisture.
