Product Description

Aeotec Extender 6 (Type G)

We all know how annoying weak wireless signals can be. Weak WiFi and poor phone signals are frustrating. Imagine if your smart home was also plagued by weak wireless signals and the same frustrations? Your smart home wouldn't be very smart. Range Extender 6 from Aeotec ensures that your connected home stays connected. It intelligently listens to the commands and reports that your Z-Wave network sends, actively capturing weak signals and then amplifying and repeating them. Amplifies wireless signals. Not only does Range Extender 6 accurately repeat Z-Wave signals, it amplifies them too and helps improve the reliability and accuracy of your Z-Wave network. Range Extender 6 is a power-outlet friendly device, designed to be as small and as compact as possible without compromising on performance. So that it doesn't block neighbouring power outlets.

Specifications
