HDF/LLC 100 Low-Loss Antenna Cable, 100 meters

from **63,49 EUR**

Item no.: 312390
shipping weight: 3.00 kg
Manufacturer: VARIA Group

Product Description

HDF/LLC 100 Low-Loss Antenna Cable, 100 meters

With an outer diameter of 5.4 mm, the low-loss LLC100 cable's thickness is comparable to the RG58 cable. However, this high-frequency cable is characterized by an extremely low attenuation of 50 dB/100 m at 2.4 GHz. Like most coaxial cables for high-frequency technology, the LLC100 has an impedance of 50 ohms and a stranded center conductor. The dielectric of this high-quality RF cable consists of air-cell foam.

As RF connectors you can use N, SMA and TNC connectors.

- Length: 100 meters
- Attenuation at 2.4 GHz: 1.3 dB/meter
- Inner lead: 0.46 mm
- Outer jacket: 2.79 mm
- Shield: 16 x 5/0.10 mm
