53,69 EUR

Item no.: 318203
shipping weight: 0.10 kg
Manufacturer: Fibaro

Product Description

Fibaro – Smoke Alarm The new Fibaro smoke sensor is an ultra-light device that is powered on battery. This sensor has two alarm indicators: a built-in siren and visual display, thus ensuring maximum protection against fires. Furthermore, the device features an integrated Blackbox function that records smoke and temperature values in the internal memory. The Fibaro smoke detector has a diameter of 65 mm and a height of 28 mm and is equipped with a built-in electronic recording device to facilitate an investigation of fire accidents. Highlights

- Stylish, ultra-light design
- Runs on battery
- 2 alarm indicators: siren, visual display
- Diameter: 65 mm, height: 28 mm
- Low battery warning
