

Item no.: 354600

Protective hose glass fibre braiding 5 m x 4 mm white

from **4,34 EUR**

Item no.: 354600
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

This protective hose made of glass fibre braiding from Delock is used to protect against high temperatures and to insulate cables, electrical lines or wires. In addition, the protective sleeve is also suitable for bundling exposed cables to protect them from dirt or damage. The protective hose is characterised by its high abrasion resistance and heat resistance. It is used by simply pushing the cables and wires through it. The cables and lines can be added or removed several times. The length of the protective conduit can be shortened individually with the help of a hot cutting device.

- Length: approx. 5 m
- Diameter: approx. 4 mm
- Operating temperature: -60 °C ~ 200 °C
- Reusable
- Material: glass fibre
- Fire resistance class: 94V-2, VW-1
