Product Description

RF Shielding OD-NStation-Loco - RF Interference Shielding for NanoStation M5 Loco

The shielding is significantly lowering the Radio Frequency interference from the left, right & backside of the antenna.

This product is protecting the signal mostly in the desirable range.

Get the best possible signal quality, minimize the amount of network failures and improve the stability of the connection.

The special feature of this shielding is that it protects the antenna especially from the interference sources from households such as a microwave ovens, wireless phones, babysitter walky-talky monitors and similar devices.

- The shielding for the Ubiquiti NanoStation M5 Loco has 45 degrees bended side panels
- Short manual for the assembly and proper use included
- Very easy, screwless installation
