shipping weight: 7.00 kg  
Manufacturer: Triton

### Product Description

TRITON RAC-CH-X05-X3 - Fan unit for free-standing cabinets, 6 fans, 90 W

These fan units are made especially for free-standing cabinets. As required, they are installed into the base, top cover or door of the cabinet.

The fan units are installed into the top cover from outside of the cabinet and into the bottom from inside of the cabinet. It is necessary to use a mounting frame (RAX-CH-XXX-X1) which is fixed with a double-sided adhesive tape when installing the fan unit into the base of the cabinet. In addition, we recommend to use a base under the cabinet for a sufficient air intake.

- Temperature regulation: Bimetal thermostat
- Nominal voltage (V/Hz): 230/50-60
- Power consumption: 90 W
- Number of fans: 6
