LWL Duplex Coupler LC to APC, Housing: SC-Simplex, plastic, green

2,58 EUR

Item no.: 325425
shipping weight: 0.10 kg
Manufacturer: VARIA Group

Product Description

LWL Duplex Coupler LC to APC, Housing: SC-Simplex, plastic, green

In contrast to copper cables, optical cables work even under the most difficult conditions. The fiber optic cables do not influence electronics and can bridge long distances thanks to their low loss. [LC connector](#)

Powerful fiber optic connector for singlemode and multimode applications with a low insertion loss of only 0.1 dB and a return loss of 55 dB. The design of the LC connector is based on a single fiber ceramic ferrule with a diameter of 1.25 mm for an optical fiber. [APC connection](#)

The mechanical fixing and mounting is carried out via a thread attached to the outside of the connector housing, which is either designed with an installation thread or as a union thread.

- Breakout SC-simplex
- With snap-on mounting
