Product Description

19" DualRack System configurator for PC Engines APU1/2/3 Boards, Dual Slot The VARIA 19" DualRack system is a high-quality, modular 19" rack system for PC Engines ALIX and APU boards. Cost-efficiency through a space-saving and power-saving network component As a high-quality and modular 19" rack system, the VARIA 19" DualRack system offers compatibility for PC Engines ALIX boards and APU1, APU2 and APU3 series boards. Due to the possibility to mount 2 ALIX or APU boards, the enclosure is ideal for the use as an individual dual or redundancy system. Network Intrusion Detection, Firewall, Load Balancing, Redundancy, PPTP or PPPoE Server are only a couple of system solutions with this enclosure. Hard disks, fans and two internal power supplies can be mounted optionally as well. The high-quality materials (galvanized steel with black powder-coated front panel) ensure stability and longevity. Please note: The optional storage medium is not included in the assembly, it will be delivered separately. If you do require a built-in storage media, please indicate this in the comments field when completing your order. Included in delivery:- 1x 19" enclosure (incl. single slot front panel), 1 U- 1x screw set for board mounting- 2x snap handle- 1x Fan incl. mounting

- Form: 19", 1 U- Dimensions: 440 x 300 x 43 mm- Front panel with preparation (160 x 35 mm) for 2x board installation.- RoHS conform (2002/95/EC)- Made in Germany Compatible PC Engines Boards:- ALIX2D13, ALIX2E13- APU1 series- APU2 series APU3 series
