Product Description

Zipato Backup Extension Module (für Zipabox2)

The Backup Extension Module maintains the Zipato Zipabox2 functions during network breakdown or power blackout. The extension module is a rechargeable battery, which allows uninterrupted power supply (USV) for around 24 hours. The module has an additional USB port for connection of an USB 3G stick. That can be used for internet backup in case of local internet connection breakdown. Furthermore, the backup module is equipped with a tamper protection sensor, which detects and reports shock and vibration.
