📄 Product Description

WAP_LORA8_KIT - wAP LoRa8 kit for 863-870 MHz frequency

The wAP LoRa8 kit is an out-of-the-box solution to use LoRaWAN gateway. This kit contains a pre-installed UDP packet forwarder to any public or private LoRa server and an outdoor weatherproof wireless access point with 2.4 GHz WLAN interface and Ethernet port which could be used as a backend.

This particular wAP form-factor has been tested in many other MikroTik products – it delivers excellent and stable performance in almost any weather conditions. You can use the optional internal 2 dBi antenna or attach an external antenna. For extra network coverage we suggest adding MikroTik LoRa antenna kit.

Functional and non-intrusive design, astonishing durability and great value – this is the wAP LoRa8 kit, the long-awaited LoRa solution for LoRa enthusiasts of any level.

- CPU: QCA9531 650 MHz
- Size of RAM: 64 MB
- 10/100 Ethernet ports: 1
- Wireless: Built-in 2.4 GHz 802.11b/g/n, dual-chain
- Antenna gain: 2 dBi
- PoE in: Yes
- Supported input voltage: 9 - 30 V (passive PoE)
- Dimensions: 185 x 85 x 30 mm
- Operating ambient temperature: -40°C to +60°C
- Operating system: RouterOS, license level 4
- Max. power consumption: 7 W
