EMO5 4G MODULE - EMO5 Module, 4 G

48,61 EUR

Item no.: 331231
shipping weight: 0.10 kg
Manufacturer: BPI

Product Description

EMO5 Module, 4 G

The EMO5 is an LTE Cat.4 module that uses the standard M.2 (NGFF) form factor. The space-saving M.2 form factor means that the EMO5 module can be easily integrated into smaller and thinner devices. Especially for M2M and IoT applications, it is ideal as it has a downlink of 150 Mbps and an uplink of 50 Mbps.

Features:

- Global LTE and UMTS/HSPA+ coverage
- Standard M.2 (NGFF) form factor
- Supports DFOTA, eCall and DTMF
- MIMO technology

Typical Applications:

- Rugged tablet PC
- M2M and IoT gateways and routers
- Video surveillance
- LTE Cat.4 M.2 module
- 3GPP E-UTRA version 11
- Bandwidth: 1.4/ 3/ 5/ 10/ 10/ 15/ 20 MHz
- Antenna: DL-MIMO, supports Rx diversity
- Supply voltage: 3.135 V to 4.4 V (3.3 V typically)
- Operating temperature range: -30°C to +70°C
- Extended temperature range: -40°C to +85°C
- Dimensions: 42.0 mm x 30.0 mm x 2.3 mm
- Weight: 6,0 g
- 3GPP TS 27.005, 3GPP TS 27.007 and Quectel enhanced AT commands
