from **362,88 EUR**

Item no.: 334271
shipping weight: 1.47 kg
Manufacturer: VARIA Group

Product Description

Teltonika Camp Bundle

Camp bundle consisting of:

- Teltonika RUTX11 LTE WiFi router
- Teltonika LTE, dual-band WiFi, GPS combo roof antenna (341093)
- Teltonika 4-pin power cable (325281)

The VARIA Teltonika Camp Bundle is ideal for mobile use or caravans when camping. It includes the Teltonika RUTX11 router, a combo roof antenna and a power cable for connection to the board network.

The router is able to achieve LTE speeds of up to 300 Mbit (LTE Cat. 6) and share it via Gigabit LAN cable or WiFi (2.4 and 5 GHz). In addition, you can use a second LTE SIM to be able to connect to the Internet via another provider in the event of a power failure. The WiFi 5 GHz AC standard is also supported with up to 867 Mbit gross data rate. In addition, the WiFi offers Wave 2 technology (MuMiMo) with which several WiFi devices can receive data from the router at the same time.

If no LTE is available, connect the router via WiFi to a nearby hotspot or access point and you can continue to access the Internet via WiFi or cable (WiFi as WAN).

The setup is convenient via the browser via LAN or WiFi. The operating system of the Teltonika router (RUTOS) based on openWRT offers a very wide range of functions.
