Item no.: 336030
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

Delock Antenna Cable - F jack > F plug with phantom power, 5 V, via USB, 22 cm

This coaxial cable is used to feed a 5 V supply voltage to operate e.g. an active DVB-T/DVB-T2 antenna. This voltage is typically performed via the antenna cable. Some TV devices do not provide 5 V supply voltage via the antenna input. In these cases, active antennas are previously supplied by a conventional power supply with voltage. Using the Delock antenna cable with 5 V phantom power enables direct power supply through a USB port of the TV device. Due to the existing USB type-A jack on the cable that carries signals and voltage, this USB connection can continue to use.

- System requirements: Device with free F connector
- Package content: Antenna cable
- Package: Zip poly bag
- Connector: F jack > F plug, USB type-A plug, USB type-A jack
- Cable colour: Black
- Cable length: ca. 22 cm
- Cable length USB: ca. 35 cm
