THB - Twin Horn Bracket

from **44,15 EUR**

Item no.: THB
shipping weight: 2.80 kg
Manufacturer: RF Elements

Product Description

THB - Twin Horn Bracket

Twin Horn Bracket allows you to install two Symmetrical Horn antennas with exactly the same alignment. The bracket also accommodates mainstream 4x4 radios, such as ePMP(TM) 3000 or Mimosas(R) A5c. High density sectors or 4x4 deployments are now ingeniously simple.

Technical Data

- Materials: Aluminium and zinc alloy, stainless steel; UV stabilized and weather resistant ABS plastic
- Environmental: IP55
- Pole mounting diameter: 40-80mm (recommended as close to 80 mm as possible)
- Temperature: -40°C to +60°C (-40°F to +140°F)
- Wind survival: 160 km/h
- Mechanical adjustment: +/- 20° elevation, +/- 20° azimuth
- Weight: 2.5 kg / 5.5 lbs. – single unit incl. package
- Dimensions: 387 x 145 x 98 mm/15.2 x 5.7 x 3.8 inch – single unit incl. package

Compatible Wireless Platforms

- RF elements(R): Any Symmetrical Horn TP Antennas Gen2 with TPA-SMA, any Symmetrical Horn CC Antennas Gen2
- Cambium Networks(TM): ePMP(TM) 3000
- Mimosas(R) Networks: A5c
