Product Description

LPBEM-6-60-5SP - Magnetic Mount SiSo LTE 5G/4G/3G/2G, 5 m RG174 Cable, SMA (m) connector

The Panorama LPBEM-6-60 is a range of low cost high performance magnetic mount antennas for temporary applications. At only 95 mm (3.7") in height and protected by a robust high impact radome, the antenna is almost impervious to daily wear and tear.

The LPBEM offers excellent performance across a wide bandwidth. The LPBEM covers global cellular and LTE frequencies from 617-960 MHz and 1710-6000 MHz, making it an extremely versatile product. Although intended for magnetic mounting on a conductive ground plane the antenna can also be used for desk mounting applications with some impact on performance.

Supplied with a convenient length of flexible RG174 cable the LPBEM is easy to install and compatible with a large range of modems. Multiple units can be deployed suitably separated for MiMo applications.

LPBEM-6-60 is the upgraded version of Panorama's popular LPBEM-7-27 magnetic mount antenna.
