Product Description

W59R - Ruggedized DECT Handset

Yealink W59R, certified to rigorous IP67 standard, is a professional ruggedized DECT handset with integrated Bluetooth and vibration alarm that is pretty eligible for the environment which may be dusty, humid, and harsh. Not only combining the advantages of wireless communication and the rich features of a Voice-over-IP phone, but also being fully compatible with the Yealink W80 Multi-Cell System for seamless roaming and handover of the calls, this handset provides users with the convenience and good experience of mobile communication in and between each zone and keeps stable in complicated and harsh locations. As a rugged and durable handset, W59R has also been developed with Yealink optimal HD audio quality that combines multiple leading technologies together, including FNR (Flexible Noise Reduction), full duplex, and Opus. This means users can get a stable and high-quality audio experience even the location is full of noise or wireless interference. Besides, the complete alarm functions and integrated G-Sensor boost the occupational safety for the person who works in hazardous locations.
