Manufacturer: ALFA Network

Product Description

APA-L2458-08-A-P - Dual-band 2.4 GHz + 5 GHz Panel Antenna, Wall and Pole Mount

If you're searching for a low profile dual-band outdoor directional antenna, consider this 8 dBi gain panel antenna manufactured by Alfa Network. It has an N female connector and comes with an N male barrel converter to fit the ALFA Tube-UAC2.

This antenna can be fastened to nearly any surface, and can be connected to many different Wi-Fi adapters.

This model will work with the ALFA Tube-UAC2 (barrel converter included). You will need to seal the connection with waterproof tape as you would with any antenna connection.

Electrical

- Frequency: 2.4 - 2.5 / 5.1 - 5.9 GHz
- Antenna type: Patch directional
