8070VR-050S - Patch cable extension, S/FTP, 5m, black

10,33 EUR

Item no.: 354774
shipping weight: 0.20 kg
Manufacturer: VARIA Group

Product Description

This RJ45 patch cable extension can be used with all conventional devices with RJ45 interface, such as computers, notebooks, DSL modems, routers, switches, game consoles, televisions and many more. The patch cable is double shielded with additional shielding of the wire pairs. This makes it 10 Gigabit-capable, suitable for your fast DSL connection. The patch cable is of course downward compatible with old devices and installations of the categories Cat.5, Cat.5e and Cat. 6. RJ45 plug with RNS®: The RJ45 plug has a latching nose protection (RNS®). This prevents the locking lug on the top of the plug from bending away. The wire pairs consist of 99.99% oxygen-free copper (OFC). This enables an increased signal transmission of the cable.

- RJ45 socket to RJ45 plug with latching nose protection (RNS®)
- Molded socket housing
- Suitable for 10/100/1000/10000 Base-T Ethernet networks (10 Gigabit capable)
- 500MHz
- Raw cable manufactured according to Cat. 7 specifications
- Shielded RJ45 Cat. 6A connector
- S/FTP cable (shielding foil + braiding)
- PiMF (cores in pairs in metal foil)
- Inner conductor: AWG 26
- Conductor material and contacts made of 99.9% oxygen-free copper (OFC)
- Outer sheath diameter: 6.2 mm
- Flame retardant according to IEC 60332-1
- Assignment 1:1 according to EIA/TIA-568B
- Halogen-free according to IEC 60754-2
- Low smoke according to IEC 61034
- Gold-plated contact surfaces
- Suitable for various devices such as patch panels, switches, routers, modems with RJ45 connection
- Colour: black
- Length: 5 m
