Product Description

AC600U - Long-Range WiFi 5 USB CPE

AC600U is a dual-band, long-range outdoor CPE with USB interface.

It supports the WiFi 5 (IEEE 802.11ac) standard in a single antenna configuration (1T1R) and includes a built-in high-gain (8 dBi) directional antenna.

The embedded module is based on a Realtek™ RTL8811AU chipset, backwards compatible with IEEE 802.11a/b/g/n/ac and supports the 2.4 or 5 GHz band.

- Embedded 802.11ac dual-band USB module (Realtek™ RTL8811AU chipset)
- Built-in, high-gain (8 dBi) directional 2 panel antenna
- Detachable cable with mini USB connector (5-meter shielded USB cable is included in bundle)
- Universal pole mounting kit included in bundle (optional suction cup mount available separately)
- Chipset: Realtek™ RTL8811AU
- IEEE 802.11 standards: a/b/g/n/ac
- Frequency: 2.4 GHz; 5 GHz
- Data rate: 802.11n: 150 Mbit/s; 802.11ac: 433 Mbit/s
- Antenna: Directional antenna with 8 dBi gain
- Interface: USB 2.0 (mini-USB)
- Operating systems: Microsoft Windows 7, 8, 10, 11; Mac OS 10.5 or higher; Linux
- Dimensions: 95 x 117 x 31 mm
