Product Description

WMX7402 - Wi-Fi 6 802.11ax 4x4 MU-MIMO 5 GHz Single Band Module

The WMX7402 enterprise module is a highly integrated wireless local area network (WLAN) mPCIe module. The module is based on Qualcomm QCN9074 and features 802.11ax Wi-Fi 6 optimal for Enterprise access points and Campus deployments. With 4x4 MU-MIMO the maximum PHY rate is 4804 Mbps achieved in 802.11ax 4x4/160 MHz native operation.

- 5 GHz full band support (4900 - 5925 MHz)
- 4x4/160 MHz .11ax PCIe radio
- MU-MIMO for 802.11ac/ax and MU-OFDMA for 802.11ax
- Dynamic frequency selection (DFS)
- Spatial reuse through BSS color, OBSS-PD, SRG and SRP
