Product Description

10" Cable Management Brush Strip with Cable Catcher 1 U grey

This brush strip from Delock is suitable for installation in a 10? network cabinet.

The network cables are simply fed through to the rear from the front, thus keeping the cables inside the network cabinet out of sight and leaving the network cabinet with a tidy overall impression.

The cable catch plate on the back of the brush strip allows cables to be fixed in place to prevent exposed cables from slipping back into the network cabinet.

The included nylon brushes prevent dust and dirt from entering.
