Product Description

SIRZB-110 - Smart Siren EU (Zigbee)

The siren can make loud sounds to scare away intruders, burglars, or in-laws... Really, though, it can scare away whomever you choose. At a volume of 90 dBm, you can be sure no one will overhear the alarm.

This Zigbee siren comes with a battery backup, so it's always there to give alarm when needed - even when there's a power outage.

As if that's not enough, the frient Smart Siren can also function as a Zigbee signal extender and strengthen wireless communication between your other Zigbee devices. For instance, if some of your devices have a weak signal because they're behind a brick wall.

With a little help from your friends

Do you like spending quality time with instruction manuals? No? Fear not. The frient Smart Siren is easy to install and connects to your devices wirelessly.
