**Item no.:** 353150
ASX00031 - Portenta Breakout Board

from **47,74 EUR**

Item no.: 353150
shipping weight: 0.10 kg
Manufacturer: Arduino

📄 Product Description

Portenta Breakout Board

The Portenta breakout board is designed to help hardware engineers and makers to prototype and help test devices connections and capacity within the Portenta family boards (e.g. the Portenta H7).

It makes all high-density connectors' signals individually accessible, making it quick and easy to connect and test external hardware components and devices as normally needed during development in the lab.

- USB port: USB A
- Ethernet: RJ45 up to 1 Gb/s
- Memory slot: Micro SD card
- Debug: MIPI 20T JTAG with trace capability
- Connectors: HD male/female
- RTC power battery: CR2032
- Length: 164 mm
- Width: 72 mm
- Weight: 0,069 kg
