Item no.: 353149
AKX00030 - Replacement Pack for Education Kits

from **26,22 EUR**

Item no.: 353149
shipping weight: 0.10 kg
Manufacturer: Arduino

📄 Product Description

Arduino Replacement Pack for Education Kits
Even though Arduino Education kits are jam-packed with everything you need, Arduino knows that mislaying parts in the excitement of getting hands-on in a classroom can sometimes happen.
In the Arduino Replacement Pack, you'll find all the common electronics parts two students may need to complete their projects.
This pack has replacement parts for the Arduino Starter Kit Classroom Pack, Arduino Student Kit, Arduino Education Starter Kit, Arduino CTC 101 and ARDUINO CTC GO! - CORE MODULE.
The pack contains a total of 183 replacement parts, including a breadboard, jump wires, LEDs, resistors, transistors, sensors, and more (it doesn't include motors).
Note that for larger products such as CTC GO!, you may need more than one pack of replacement parts.
The Arduino Replacement Pack includes:

- 1x breadboard assembly
- 10x jumper wires
- 5x red LEDs
- 5x green LEDs
- 5x yellow LEDs
- 10x 220 ? resistors
- 5x 680 ? resistors
- 5x 560 ? resistors
- 5x 470 ? resistors
- 5x 1.2 K? resistors
- 5x 10 K? resistors
- 5x 1 K? resistors
- 5x 4.7 K? resistors
- 5x 10 M? resistors
- 5x 1 M? resistors
- 2x 100 uF capacitor
- 2x phototransistors
- 2x piezos
- 5x push buttons
- 5x potentiometers
- 5x knobs for potentiometer
- 1x battery wire 9 V - open lead
- 1x Zener diode
- 1x temperature sensor
- 1x optocoupler
- 1x mosfet transistors
- 1x tilt sensor
- 1x steel ball 12 mm diameter
