

Item no.: 354317

## Patch cable fibre optic duplex OS2 (singlemode, 9/125) LC/SC, LSZH, 2 m

**4,48 EUR**

Item no.: 354317  
shipping weight: 0.10 kg  
Manufacturer: VARIA Group

### Product Description

Fibre optic patch cables enable different network components to be connected to each other and ensure loss-free data transmission. Different quality classes (OMx/OSx) facilitate the qualitative and functional differentiation of a fibre optic patch cable.

The use of high-quality materials and modern production facilities as well as continuous quality controls during the production process ensure loss-free signal transmission and consistently high quality. Each individual patch cable undergoes testing after assembly. After successful measurement, an individual measurement/test report is enclosed with each patch cable.

- Fibre quality: OS2 | core/fibre: 9/125 micrometre | singlemode | halogen-free (LSZH) and flame-retardant - G652D fibre, 2.00 mm diameter
- Connectors: LC duplex male to SC duplex male | duplex clamp removable - interchangeable polarity
- Attached bend relief / Min. bending radius: 15 mm / Working temperature: -40 to +85 °C
- High quality standards, 100% testing: Each cable comes with its own measuring/testing protocol
- Colour: Yellow (OS2) | Length: 2 m

- Fibre optic (FO) duplex patch cable
- Connection 1: LC (UPC)
- Connection 2: SC (UPC)
- Incl. dust protection caps
- Exchangeable polarity / coding
- Attached bend protection sleeve
- Fibre grade: OS2
- Fibre: G652D
- Fibre type: Singlemode 9/125µ
- cable construction: Duplex
- Cable diameter: 2.0 mm
- Jacket material: Halogen free (LSZH)
- Min. bending radius: 15 mm
- Working temperature: -40 to +85 °C
- Quality: Each cable comes with its own measuring/testing protocol
- Colour: Yellow (OS2)
- Length: 2 m
