

Item no.: 354270

Patch cable fibre optic duplex OM3 (multimode, 50/125) LC/SC, LSZH, exchangeable polarity, 2m

from **8,96 EUR**

Item no.: 354270
shipping weight: 0.10 kg
Manufacturer: VARIA Group

Product Description

Fibre optic patch cables enable different network components to be connected to each other and ensure loss-free data transmission. Different quality classes (OMx/OSx) facilitate the qualitative and functional differentiation of a fibre optic patch cable.

The use of high-quality materials and modern production facilities as well as continuous quality controls during the production process ensure loss-free signal transmission and consistently high quality. Each individual patch cable undergoes testing after assembly. After successful measurement, an individual measurement/test protocol is enclosed with each patch cable.

- Fibre optic (FO) duplex patch cable
- Connection 1: LC (UPC)
- Connection 2: SC (UPC)
- Incl. dust protection caps
- Exchangeable polarity / coding
- Attached bend protection sleeve
- Fibre grade: OM3
- Fibre type: Multimode 50/125µ
- Cable construction: Duplex
- Cable diameter: 3.0 mm
- Jacket material: Halogen free (LSZH)
- Min. bending radius: 7.5 mm
- Working temperature: -40 to +85 °C
- Quality: Each cable comes with its own measurement/test report
- Colour: Aqua (OM3)
- Length: 2 m

Properties

- Fibre optic cable connection 1: LC
- Fibre optic cable type: Duplex
- Fibre optic cable type: Standard
- Fibre optic cable length: 2 m
- Fibre optic cable connection 2: SC
- Fibre optic cable category: OM3
