

Item no.: 353897

Aramid fibre braided hose 2 m x 10 mm

from **5,83 EUR**

Item no.: 353897
shipping weight: 0.80 kg
Manufacturer: Delock

Ø 10 mm / 2 m

Product Description

This braided sleeving from Delock is made of special aramid fibres and has excellent temperature resistance, tensile strength and abrasion resistance to protect sensitive cables, lines and wires.

The conduit has a high flexibility to protect cables from excessive bending and impresses with its stretchability, which allows it to accommodate several cables or conduits with different diameters. The special fibres withstand high loads. This type of braided sleeving is mainly used in the electrical industry and for machinery installations.

Due to the strong aramid fibre structure, the braided sleeving can only be cut with a special tool. The Delock scissors 90554 are suitable for shortening.

- Length: approx. 2 m
- Diameter: approx. 10 mm
- Cable diameter:
 - min.: 7 mm
 - max.: 13 mm
- Ambient temperature: -170 °C ~ 250 °C
- Fire resistance class: 94V-2
- Material: aramid fibre
- Colour: yellow
- Package contents: Braided sleeving
