

Item no.: 354598

## Protective hose glass fibre braiding 10 m x 2 mm white

from **5,20 EUR**

Item no.: 354598  
shipping weight: 0.30 kg  
Manufacturer: Delock

### Product Description

This protective sleeve made of glass fibre braiding from Delock is used to protect against high temperatures and to insulate cables, electrical lines or wires. In addition, the protective conduit is also suitable for bundling exposed cables to protect them from soiling or damage.

The protective sleeve is characterised by its high abrasion resistance and heat resistance.

It is used by simply pushing the cables and wires through it.

The cables and wires can be added or removed several times.

The length of the protective conduit can be shortened individually with the help of a hot cutting device.

- Length: approx. 10 m
- Diameter: approx. 2 mm
- Operating temperature: -60°C ~ 200°C
- Reusable
- Material: glass fibre
- Fire resistance class: 94V-2, VW-1
