AEOEZWA018 - Water Sensor 7

from **39,20 EUR**

Item no.: 357934
shipping weight: 0.50 kg
Manufacturer: Aeotec

Product Description

With the Aeotec Water Sensor 7 you are optimally protected against water damage.

Leakage detection. Leaks can lead to expensive bills and costly damage. The Aeotec Water Sensor 7 not only monitors leaking liquids, but also lives up to its name by detecting the absence of water. This means that the smart device warns you when the water level in tanks or pits is too low. In addition, the Aeotec Water Sensor can trigger 7 automation routines.

Leakage protection. The Aeotec Water Sensor 7 not only monitors leaking water. Once the smart device is connected to your Z-Wave system, the Water Sensor 7 can take action to minimise the damage caused by drips, leaks or burst pipes. For example, in the event of a burst pipe, the Aeotec Water Sensor 7 can instruct the water valves to close automatically.

- Z-Wave 700 series - higher range, more efficient and better performance compared to older generation series Z-Wave Water Sensor
- Sensor probe to detect leaks in hard-to-reach areas
- Radio technology: Z-Wave Plus V2
- SmartStart capable
- S2 Security
- Battery operated (1x ER14250), up to 5 years battery life
