

Item no.: 357323

## Cold shrink tubing 25 mm x 130 mm, 2 pieces, black

from **8,81 EUR**

Item no.: 357323  
shipping weight: 0.10 kg  
Manufacturer: Delock

### Product Description

This cold shrink tubing from Delock is used for the mechanical protection of cables, lines or wires, for example.

The assembly is done by simply pulling out the plastic insert, thereby completely wrapping, insulating and sealing the cable. A special tool such as a heat gun for heating the tubing is not required.

The heat shrinkable tubing offers increased resistance to weathering, acids, alkalis, ozone and UV radiation and is ideal for outdoor use.

- Length: approx. 130 mm
- Diameter: approx. 25 mm
- Inner diameter (after shrinkage): approx. 6.5 mm
- Easy installation without tools
- Very good weather and chemical resistance
- Suitable for indoor and outdoor use
- Operating temperature: -40 °C ~ 200 °C
- Material: silicone
- Colour: black
- 2 x cold shrink tubing
