Product Description

This heat shrink tubing set from Delock is used to protect and insulate cables, electrical lines or wires. When exposed to heat, the tubing completely encloses the cable and contracts. This protects the cable from the weather and mechanical damage.

- This set includes tubing with 6 different diameters and 9 different colours for versatile use
- The heat shrink tubing can be used, for example, in a workshop, in the home or in industry
- The heat shrink tubing can be heated with a heat gun, the tubing shrinks to half its original diameter when heated
