Product Description

This Velcro tape from Delock can be used, for example, for space-saving bundling of individual cables, for closing bags or also as a retaining strap for luggage or similar. The tape can either be sewn, nailed or stapled to the object to be fastened.

With the help of the loop, the Velcro strap can be securely fastened to a cable bundle, for example, and keeps exposed cables neat and tidy.

The Velcro fastener allows the Velcro tape to be quickly attached and easily detached again. The clip attached to the tape ensures strength, stability and secure bundling. The length of the roll can be individually shortened and a new clip added. Matching clamps are included in the set.
