

Item no.: 357314

Fabric shrink tubing 2 m x 10 mm shrinkage rate 2:1 black

from **5,23 EUR**

Item no.: 357314
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

This special fabric heat shrinkable tubing is suitable for cable bundling and offers very high abrasion, scuff and insulation protection even when exposed to heat. The excellent fabric structure provides the tubing with outstanding flexibility and durability.

The heat shrink tubing can be heated with a heat gun, shrinking the tubing to half its original diameter when heated.

Fabric shrink tubing can be used, for example, in engine compartments, for cooling water lines or hydraulic lines.

- Length: approx. 2 m
- Diameter: approx. 10 mm
- Shrinkage rate 2:1
- Shrink temperature: 110 °C ~ 185 °C
- colour: black
- Material: polyolefin and polyester
