

Item no.: 357950

Dimmer 2 with overheating protection

from **40,41 EUR**

Item no.: 357950
shipping weight: 0.50 kg
Manufacturer: Shelly

Product Description

The Shelly Dimmer 2 is able to cover all kinds of electrical installations. You want to dim your lighting, but your house is missing the neutral conductor? Then the Shelly Dimmer 2 is just the thing for you, because it is used in houses where the neutral conductor is missing and offers you all dimming functions at the same time.

- No additional controller: You don't need an additional hub because the Shelly Dimmer 2 uses your WiFi network
- On/off and dimming function: With the Shelly Dimmer 2 you can switch your light on/off or use the dimming function according to your needs
- Overheating protection: The internal temperature sensor provides overheating protection
- Supports 100-240V~ 50/60Hz: Shelly Dimmer 2 allows you to dim incandescent and halogen lamps (10-220 W), dimmable LED lights (50-200 VA/10-200 W) or resistive-inductive loads from ferromagnetic transformers (50- 150 VA)
- Free Cloud: All you need to manage the Shelly Dimmer 2 is your smartphone and the free Shelly Cloud app
- Power supply 110-230 V $\pm 10\%$, 50/60 Hz
- Operates without neutral
- Operating temperature: 0°C to 35°C
- Radio signal power: 1 mW
- Radio protocol: WiFi 802.11 b/g/n
- Frequency: 2400 - 2484 MHz;
- Range (depending on local development): up to 50 m outdoors, up to 30 m indoors
- Power consumption: < 1 W
