

Item no.: 358013

Entry Sensor Basic (Zigbee)

from **26,35 EUR**

Item no.: 358013
shipping weight: 0.50 kg
Manufacturer: frient

Product Description

Imagine always having a friend (frient) who checks doors, windows and temperature in your house. Someone who lets you know when you have left a window open. A friend who warns you when someone is trespassing in your house. Someone to look after the security of your home while you enjoy your holiday without worry. The safety of your home and family is a top priority. Take control and make sure your home is never left unattended. Never worry about your home again, because the door sensor (frient Entry Sensor) always keeps an eye on your home. You will be alerted immediately via the app if someone opens a window or door in your home - so you can act before unwanted intruders do.

Mount the smart frient Entry Sensor on a door or window and it will register when they are opened or closed. Thanks to the door sensor's long battery life, you can rest assured that your home is always well taken care of.
