Item no.: 357937
Range Extender Zi (Zigbee)

from **27,83 EUR**

Item no.: 357937
shipping weight: 0.50 kg
Manufacturer: Aeotec

📄 Product Description

Modern smart homes no longer rely on expensive cables. They are wireless. Similar to Wi-Fi or the 4G network, wireless smart homes have areas where the signal may not be optimally available.

Our Aeotec Range Extender Zi addresses wireless weak spots. Install the Zigbee range extender in a standard wall socket, connect it to your gateway and the Range Extender Zi starts optimising your Zigbee-powered smart home.

Thanks to its special antenna, it repeats and amplifies the Zigbee radio signals. The extender has a signal range of up to 100m and uses the latest Zigbee technology to close wireless gaps in your smart home.The Range Extender Zi is fully Zigbee 3.0 and Works with SmartThings certified.

It can connect to most Zigbee-enabled solutions such as SmartThings or Home Assistant. Together with our Aeotec SmartThings products, it perfects your Smart Home.
