Item no.: 358655
USB Type-C® Cable 2-in1

from **8,77 EUR**

Item no.: 358655
shipping weight: 0.10 kg
Manufacturer: Arduino

📄 Product Description

Now you can connect your Arduino boards with the official Arduino USB cable. Through a USB-C® to USB-C with a USB-A adapter connection, this data USB cable can easily connect your Arduino boards with your chosen programming device.

The Arduino USB cable has a nylon braided jacket in white and teal, so that you can sport the Arduino colors even when you are hooking up your electronics. The connectors have an aluminum shell that protects your cable from harm at the same time as looking stylish.

- 100 cm
- Aluminium shell with logo
- Nylon braided jacket white and teal
