

Item no.: 358002

## frient Smart Humidity Sensor (Zigbee)

from **32,38 EUR**

Item no.: 358002  
shipping weight: 0.50 kg  
Manufacturer: frient

### Product Description

Too wet or too dry? Imagine always having a friend (frient) to look after your belongings. Someone who protects the things that mean a lot to you. A frient who tells you when to open a window to improve conditions for your belongings. In other words, someone who is proactive when necessary.

Avoid damage. The wireless humidity sensor (frient Smart Humidity Sensor) monitors both the humidity and temperature in your rooms. No longer worry about your beloved paintings or other favourite pieces stored in your basement, because your frient is watching out for them. If the environmental conditions in your cellar, garage or any other room are bad for your belongings, your frient will let you know in time. This way you can intervene and prevent damage.

- Dimensions: 70 x 70 x 21 mm
- Power supply: Battery 2x AA, replaceable
- Battery life: 5 years, reporting every 5 minutes
- Battery level and low battery warning can be sent
- Radio sensitivity: -92 dBm
- Output power: +3 dBm
- IP class: IP20
- Operating temperature 0 to +50°C
- Relative humidity 5% - 85%, non-condensing
- Temperature sensor range: 0 to +50°C
- Temperature resolution: 0.1°C (accuracy  $\pm 0.5^\circ\text{C}$  0 to +40°C)
- Humidity sensor range: 0 to 100% rH
- Humidity sensor resolution: 1% rH (accuracy  $\pm 3.5\%$  rH, 20 to +80% rH)
- Zigbee 3.0
- Complies with CE, RoHS and REACH directives
