Door Sensor Pro (Zigbee)

from **32,17 EUR**

Item no.: 358012
shipping weight: 0.50 kg
Manufacturer: frient

Product Description

Door and temperature sensor. Imagine always having a friend (frient) who controls doors, windows and temperature in your home. Someone who lets you know when you have left a window open. A frient who warns you when someone is trespassing in your home. Someone to look after the security of your home while you enjoy your holiday without worry. Please note that a Zigbee gateway is required for notification on your smartphone.

Outsmart burglars. Keeping your home and family safe is a top priority. Take control and make sure your home is never left unattended. Never worry about your home again, because the door and temperature sensor (frient Entry Sensor Pro) always keeps an eye on your home. You will be alerted immediately via the app if someone opens a window or door in your home - so you can act before unwanted intruders do.

Are my home and family safe? Mount the smart frient Entry Sensor Pro on a door or window and it will register when they are opened or closed. This way you can check when your grandmother leaves the house. In addition, the sensor measures the temperature in your home. This way you can make sure your children have a cosy warm home when they come home from school in winter. Sit back and rely on your frient to look after your family when you are away. Thanks to the long battery life of the door and temperature sensor, you can rest assured that your home is always well looked after.

Unlike the FRIZWISZB-121, the frient Door Sensor Pro (Zigbee) offers you a temperature sensor as well as tamper protection.

- Dimensions: Sensor: 76 x 26 x 17 mm; Magnet: 30 x 12 x 9 mm
- Power supply: Battery 2 x AAA, replaceable
- Battery life: 9 years battery life if reported every 2 minutes
- Battery level and low battery warning can be reported
- Operating temperature: 0 to +50°C
- IP class: IP40
- Relative humidity 5% - 85%, non-condensing
- Radio sensitivity: -98 dBm
- Output power: +8 dBm
- Temperature sensor range: 0 to +50°C
- Temperature resolution: 0.1°C (accuracy $\pm 0.5^\circ\text{C}$)
- Magnetic detection sensor: 0.1 - 1.0 cm distance between sensor and magnet
- Zigbee 3.0
- Complies with CE, RoHS and REACH directives
- Article dimensions (WxHxL) 38 x 76 x 17 mm
- Packaging dimensions (WxHxL) 73 x 99 x 34 mm
- Item weight (net) 0.030 kg
- Item weight (gross) 0.084 Kg
- Battery AAA
- WEEE
- CE
- IP class IP40
