

Item no.: 361083

Fibre optic continuity tester 10 mW for SC, LC, ST and FC connectors

from **49,09 EUR**

Item no.: 361083
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

This fibre optic tester from Delock is used to check and accurately measure fibre optic connections. The continuity tester detects whether the light beam is transmitted properly and quickly identifies breaks, dirty connections or cracks in fibre optic cables.

Specification

- For singlemode and multimode fibre optics
- 2.5 mm ferrule for SC, ST, FC connectors
- Adapter for LC connectors
- Three-stage switch: CW, OFF, GLINT
- Wavelength: 650 nm \pm 10 nm
- Laser power and range: 10 mW (up to 10 km)
- Light source: Laser class 3B, 650 nm, 10 mW
- Operating temperature: -10 °C ~ 70 °C
- Robust aluminium housing
- Power supply: 2 x AA batteries (not included)
- Colour: black
- Dimensions (LxWxH): approx. 175 x 26 x 26 mm

Package contents

- Fibre optic continuity tester
- LC adapter
- Operating instructions
