Product Description

With this adapter from Delock, a USB Type-C™ cable can be used to charge a notebook. The 90° angle avoids bending of the cable and the small dimensions make the adapter an ideal companion when travelling.

With the USB Type-C™ connection, any USB-C™ charging cable can be used to charge the notebook. The adapter is therefore a practical addition for working on the go, as there is no need to use a separate notebook charging cable.
