

Item no.: 361101

Fibre optic distributor for indoor and outdoor use IP65 waterproof lockable 24 port grey

from **44,61 EUR**

Item no.: 361101
shipping weight: 1.50 kg
Manufacturer: Delock

Product Description

This lockable distribution box from Delock is suitable for wall mounting and serves as a protective device for optical cables and couplings. The distribution box allows up to 24 SC simplex or LC duplex couplings to be accommodated.

The integrated splice cassette enables clean routing of the individual fibres for optimal transmission of lightwave signals. In addition, the cassette is perfectly suited for mechanical splicing and fusion splicing.

The distribution box has two cable inlets and 25 cable outlets, which are protected with a rubber seal. The gaskets provide a watertight seal to the enclosure for running fibre optic cables indoors and outdoors. A gland can also be inserted on the front side of the enclosure to pass through another cable.

Specification

- Fibre optic distribution box for FTTH applications
- 24 slots for SC Simplex or LC Duplex couplings
- Wall mounting
- Lockable
- With splice cassette
- Cable inputs and outputs
- Suitable for indoor and outdoor use
- Protection class: IP65
- Ambient temperature: -40 °C ~ 75 °C
- Housing colour: grey
- Enclosure material: ABS
- Dimensions (LxWxH): approx. 330 x 270 x 100 mm

Package contents

- Fibre optic distributor box
- 1 x key
- Fixing material
- Plastic tubing
- 24 x shrink splice protection

Packaging

- White Box
