### Product Description

This fabric sleeve from Delock is suitable for bundling exposed cables, electrical lines or wires to protect them from soiling or damage. It consists of special continuous fibres (monofilament and multifilament) and thus offers increased flame resistance and abrasion resistance.

**Self-closing**The fabric hose closes automatically after the cables are added. The cables can be added or removed several times.

**Cuttable**The length can be shortened individually with the help of a hot cutter.
