Product Description

TS8GUFM-H, Transcend 8GB, 8GB USB Flash Module, SLC

Transcend's USB Flash modules are convenient, easy to implement solutions for expanding the memory capacity of industrial computers. These compact storage devices consume a minimal amount of power and feature a mechanical write protection switch. Due to their minimalist dimensions, the USB modules are suitable for use in smaller embedded systems.

- USB 2.0 compliant
- Fully compliant with open industry standards
- Write protection switch
- Hi-speed USB 2.0 compliant
- Supporting hot-swapping, true plug-and-play functionality
- Fully compatible with devices and operating systems (OS) that support the USB standard
- Lower power consumption
- Fully compliant with open industry standards
- Write protection switch
- Additional external 4-pin-out (pitch = 2.54 mm) USB connector
- LED indicates the usage status of USB Flash module
